

Autonomic Response Testing in 2009

Autonomic Response Testing (ART) is different from other forms of muscle testing. It uses the latest findings of quantum and biophotonic physics to aid in the assessment of the body. This allows for a much deeper level of testing not available before to traditional kinesiologists. Tools such as a polarization filter and signal enhancers are used to get stronger, clearer feedback from the body.

ART often finds things that are missed with traditional kinesiology. ART practitioners in general also have the ability to test for a wider variety of root causes of illness, including specific infections, toxins, and emotional disturbances. ART is used along with traditional tests to determine the root causes of illness. It is not used to diagnose diseases. ART has been shown to be the most accurate of all kinesiology techniques, with the best reproducibility and inter-examiner reliability.

We are offering **3 ART I classes in 2009**, taught by Andreanna Rainville, RN.

January 17-18, 2009 in Bellevue, WA

March 21-22, 2009 in Bellevue, WA

April 24-26, 2009 in New York City.

We are also offering **ART II and ART III in 2009**, taught by Dietrich Klinghardt, MD, Ph.D.

ART II: June 19-21, 2009 in Bellevue, WA

ART III: August 28-30, 2009 in Bellevue, WA

This is a wonderful way to perfect your ART skills.

If you sign up for more than one ART I class, you will receive a **\$200 discount** off the second class. And if you sign up **at the same time** for ART I, ART II and ART III, all in 2009, **the fee for all three classes is \$1100** (*this is a steal of a deal - last year ART III alone was offered for \$800*).

**SIGN UP ON THE INTERNET: WWW.KLINGHARDT.ORG, OR BY CALLING
KLINGHARDT ACADEMY OF NEUROBIOLOGY AT (303) 499-4700.**
